The above Cherry were ReBudded in our One Year Blocks a year ago. Digger run under same without lifter. One Year removed and these Buds cultivated same as regular One year. This gives a strong vigorous tree with extra fine Root System same as 2 year. They are not quite as smooth as regular One year where they were Cut Back for Budding but many who have bought same prefer them on account of stronger roots. Samples furnished if desired. The Dukes in three upper grades are regular One year.
